MASTER IN VISUAL ARTS DEGREE

The Masters in Visual Arts of the Accademia D'Arte AD'A is a personalized year program. The aim is to guide students in their chosen specialization, as well as the development of their technique in order to prepare them to become part of the art world.

ADA, located in the historic center of Florence, is an Institution with two decades of experience training artists and guiding them to the fulfillment of their artistic aspirations.

STUDY WITH US

ADA invests in the creative and intellectual development of its students through a curriculum of critical, practical and analytical study of all art related subjects.

The Accademia provides students with a strong classical foundation and guides them in their expression of the contemporary artistic language of our day.

Each student is encouraged to develop a his or her personal style and a unique artistic view point in their chosen medium.

The faculty at ADA are working professional artists prominent in their respective field and are deeply rooted in their specific techniques. They are able to direct students to the best possible outcome within an extensive variety of mediums.
